

## DT1000

This electric dumper, personal accompanying, was designed to withstand the harsh life of a project, ideal for removing a large amount of debris underground, inside or just outside where there has narrow passages.

The tilting platform system of the vehicle allows accessories to be changed quickly and easily.

The gear train is in a sealed oil bath to eliminating maintenance and increase reliability.

**The Large 460mm diameter driving wheels ensure maximum traction even on rough surfaces**

The 4 x 114 Ah maintenance free Lead Acid Batteries provide an autonomy of up to 8 hours of operation on a single charge.

### Made in Europe

- The DT-1000 is an environmentally friendly electric powered 4 wheel dumper designed to work with loads up to 1000 Kg.
- This machine is designed to be used indoors and out.
- The heavy duty frame is made from steel and is built for industrial renovation work.
- The balance between the load and the wheels provides stability and safety.
- The motor has an electromagnetic brake that automatically engages when the power is turned on providing a braking capacity on slopes up to 30% when the barrow is fully loaded.

#### PERFORMANCE

Loading capacity	<b>1000 kg</b>
Max Loading capacity 30% slope	800 Kg
Max lateral gradient	30%
Forward Speed	max 5 km/h
Reverse Speed	max 2.5 km/h
Battery Autonomy	approx 4.5 hrs
Battery Recharge	approx 8 hrs
Lead Acid Traction Batteries	4 x 114 AH 24 Volt @ 5 h 2000 Charge-Lifecycle. Optional Gel Batteries 1000 Charge-Lifecycle
Electromotor	24V / 1200W

#### DIMENSIONS

Overall Length	2270 mm
Overall Width	890 mm.
Overall Height	1070 mm
Machine Weight	366 Kg
Skip	780 Litre
Driving Wheels Diameter	460 x 235 mm
Part Number	# DT1000 (see page 2 for options)

**Inboard charger included**

**Oil bath differential**
