

DT-300L

This Carrier with Electric Drive was designed on the chassis lengthened Heavy duty D-Trak500.

Very stable thanks to its 4-wheels, it rotates almost on the spot thanks to its two idler wheels.

Long Autonomy allows you to work all day and it's dimensions allow it to be equipped with various accessories: Tipper, Flatbed stretch, electric tipping cylinder, tubular plate.

The Large 420mm diameter driving wheels ensure maximum traction even on rough surfaces

The 2x75Ah maintenance free Lead Acid Batteries provide an autonomy of up to 6 hours of operation on a single charge.

Made in Europe

- The DT-300L is quiet and produces no hazardous exhaust.
- The width of the machine will allow passage through most doors and is considered optimal for indoor restoration work or moving materials in an environment where the exhaust, noise and smell of a combustion engine is not acceptable.
- Advanced engineering allows an efficient use of energy and power to produce an autonomy of up to 6 hours of continuous operation on a single charge.
- This machine is designed to be used indoors and out.
- Ideal for Biological Agriculture.**

ZERO EMISSIONS

PERFORMANCE

Loading capacity	400 kg
Max Loading capacity 20% slope	300 Kg
Max lateral gradient	20%
Forward Speed	max 5 km/h
Reverse Speed	max 2.5 km/h
Battery Autonomy	approx 8 hrs
Battery Recharge	approx 8 hrs
Lead Acid Traction Batteries	2 x 75 AH 24 Volt @ 5 h
2000 Charge-Lifecycle. Optional Gel Batteries 1000 Charge-Lifecycle	
Electromotor	24V / 900W

DIMENSIONS

Overall Length	1700 mm
Overall Width	775 mm.
Overall Height	1050 mm
Machine Weight	130 kg
Wheelbase	1000mm
Driving Wheels Diameter	420 x 166 mm
Part Number	# DT300L (see page 2 for options)

Inboard charger included

Oil bath differential
