

## JT-300L

The JT-300L is a silent running low maintenance and zero emissions four wheeler electric transporter.

This Battery Electric Carrier is designed on the chassis of a lengthened D-Trak500.

Very stable thanks to its 4-wheels, it is very easy to drive with one hand only and without effort, because the handle directs two steering wheels and the drive controller operates from the drivers thumb.

The 260 litre skip is perfect for landscaping or paddock work and can carry 300kgs on a 20% gradient.

**The Large 420mm diameter driving wheels ensure maximum traction even on rough surfaces**

The 2x75Ah maintenance free Lead Acid Batteries provide an autonomy of up to 8 hours of operation on a single charge.

### Made in Europe

- The JT-300L enables moving large quantities of material in hospitals , hotels ...
- The JT-300L is very stable, compact and safe to use.
- Advanced engineering allows an efficient use of energy
- Up to 8 hours of operation on a single charge.
- The JT-300L is considered optimal for moving materials in famr, warehouse, workshop...
- The swivel tiller handle allows easy operation and control with great maneuverability.

ZERO EMISSIONS

PERFORMANCE	
Loading capacity	<b>400 kg</b>
Max Loading capacity 30% slope	300 Kg
Forward Speed	max 5 km/h
Reverse Speed	max 2.5 km/h
Speed Control	tiller arm lever
Battery Autonomy	approx 8 hrs
Battery Recharge	approx 8 hrs
Lead Acid Traction Batteries	2 x 75 AH 24 Volt @ 5 h
2000 Charge-Lifecycle. Optional Gel Batteries 1000 Charge-Lifecycle	
Electromotor	24V / 900W

DIMENSIONS	
Overall Length	1360 mm
Overall Width	775 mm.
Overall Height	1130 mm
Machine Weight	143 kg
Wheelbase	1000 mm
Driving Wheels Diameter	420 x 166 mm
Part Number	# JT-300L (see page 2 for options)
<b>Inboard charger included</b>	
<b>Oil bath differential</b>
