Illustrated
#DCT300 with
Optional:
Electric Lifter and Skip

Designed to meet
challenging ground
conditions

Compact

Speed switch to operate
in narrow spaces

Set up for different
accessory types

The DCT-300 is an electric vehicle extremely effective in the vineyards and orchards, in building sites and indoors, in tunnels or underground and in places where tracked traction and zero emission are essential. The version "Performance", with special motors and drivers, allows the best benefits during the work and grants bigger autonomy (product image with electric lifter and skip accessory, not included in the basic version).

FEATURES
